Specification Sheet / 01
A362 V40R reconstituted foam

ISO9001, ISO14001, ISO45001
Certificate Ref: 11738

Description
Reconstituted foam based on Polyurethane flakes

Typical physical properties	Value
Density (DIN EN ISO 845)	370 kg/m3 +- 20%
Compression load deflection (DIN EN ISO 3386; 40%)	>200 kPa

All data refers to centre part of the block in state of delivery. Our foam material does not contain any CFC. The information submitted in this data sheet is based on our current knowledge and experience. It does not imply any legally binding assurance. Whenever used, the special conditions of the particular application must be taken into consideration, particularly those regarding physical, technical and legal aspects concerning construction

Change Control Date	Change
27/9/16	Created

The above figures are average values.
We recommend that you examine any material you select to ensure its suitability for your application.
Tolerance(s) applied in accordance with ASG specification No WI007 (<https://bit.ly/3nKm6Hj>) unless otherwise stated.
Our standard terms and conditions of trading (<https://bit.ly/3b3mThw>) apply at all times.
